
MEMORANDUM

TO: LONNY GRAFMAN
FROM: THOMAS PREMO, BRYCE SCRIVEN, MATTHEW WARDYNSKI, AND TYLER WILKINS
SUBJECT: FINAL DOCUMENT SUBMISSION
DATE: MAY 2, 2017

The purpose of this memo is to be attached to our final document for the Zane Middle School project. We are Team 'Work' and our project was Mulch Makeover.

While reading through our final document, we ask that you keep in mind the late specifications we had to take into account. Our final solution was confirmed after the submission of section IV. We did make some corrections to section IV, for example, the final design justification does refer to the true final solution. However, the Delphi matrix and many other previous statements do not refer to our final design as a possible solution.

We look forward to receiving your feedback on these documents.
