

PVC pipe
Easy to find, and cheap
Hard to to not slip, as the surface is very smooth.
2 inch PVC pipe Pricing per simulator is _____
Bamboo
Relatively easy to find in Uganda and Cheap
Could be too thick. Depends on the age and size of the bamboo
Aim for a bamboo piece of 2 inch diameter and from the ?lower part of the trunk of the bamboo tree, ideally the thickness of the bamboo should be...
Cow Bone
Available in most area where cow meat is consumed
The cortex of cow bone can be much thicker than human bone
Aim for a cow with a younger age, 12-18 months. You can use the bones fresh, and that would be the closest to simulate real bone. You can also boil the bone and let it dry if you want to preserve it for longer time
Lamb bone
Similar to a child bone. Useful to build a simulator to simulate pediatric bone
Can be expensive in certain areas.
Aim for a lamb 8-12 m months of age (This can vary by species)
Pig bone
Similar to a child's bone. Can be useful to build a simulator for practicing pediatric bones
Can be culturally challenging to use in certain areas. Certain interpretations of Islam don't allow for contact with pig bone.
Aim for a pig 8-12 months of age to get the same dimensions of an 8 year old child.
Goat Bone
Similar to adult bone
Might be expensive in certain areas
Aim for a goat of _____ age
Playdough
Easy to make
Might be much harder than bone
