The purpose of this memo is to submit our draft of Section V: Specifications. There is missing content in this draft due to the fact that we are in the process of building our model. In this section, we have included an Introduction and description of our solution.

Also attached to this memo is our power point for our presentation. Assuming that our draft poster was collected during lab of last week, the poster draft is not attached to this memo.

We hope to hear positive feedback from you.
