
INTEROFFICE MEMORANDUM

TO: LONNY GRAFMAN
FROM: NICK NOTTHOFF, JACAI DENEVEU, MICHAEL DANGLER III
SUBJECT: PROBLEM ANALYSIS
DATE: MARCH 4, 2013

PURPOSE

The purpose of this memo is to submit the problem analysis for team "Check us out" who's agenda is to construct a cashier's desk.

SUMMARY

The problem analysis covers the criteria that our client thought were important to the design and implementations of the checkout desk for the company SCRAP Humboldt.

Discussion

The problem Analysis consists of all the different type of criteria that are group and our client thought would be highly valued when designing our checkout desk. Things like design specification and usage were highly valued by the client .We also listed a number of constraints we needed to abide by when constructing.

RECOMMENDATIONS

Pay closely attention to the limitations' /constraint we have to follow when making the desk. It will be important to know and will give you a better idea of what the desk may look like.
