MEMORANDUM

---

**TO:** LONNY GRAFMAN

**FROM:** ZACK RAMSEY, JAKE COOPER, AHRON CERVANIA, ABE AUFDERMAUER

**SUBJECT:** SECTION III, ALTERNATIVE SOLUTIONS MEMO

**DATE:** 3/13/15

---

**PURPOSE**

This memo summarizes the process of creating alternative design solutions for the Zane Middle School gutter and drain system and requests action from the reader to suggest corrections that can be made to the document that will aid in the formation of the final draft.

**DISCUSSION**

As a group, ideas for alternative solutions were formulated during a brainstorming meeting. At another meeting the ideas were revised and condensed into more complete and accessible plans. From these ideas, a more thorough description of the designs, along with drawings of the proposed plans, were written and compiled into the Section III Alternative Design section.

**RECOMMENDATION**

It is recommended that the Section III alternative solution submission be assessed by the reader of this memo and the feedback from the assessment be conveyed to team Livewire in order to revise the final document. The specific section reviewed should be 1.3.3 of the Alternative Solution document
