
MEMORANDUM

TO: INSTRUCTOR GRAFMAN

FROM: TEAM RAIN CATCHERS STUDENTS HANNAH MARSH, AMANDA NORTON, CHARLES DIEHL, AND CHIP BROCIOS

SUBJECT: ENGR 215 10-WEEK PROJECT: DECISION PHASE

DATE: MARCH 24, 2014

The Purpose of this memo is to submit the Final Design Solution that will be built at Zane Middle School.

Attached to the memo is the Decision Phase, which is made up of many components. The criteria and alternative solutions are reintroduced in order to make sense of the Delphi chart that was created to rank how well each design matches the criteria. The top three solutions were identified with the Delphi chart, and then presented to the client for their final decision.

The Rain Catchers look forward to receiving feedback on this important document so we can start to build.
