03

04

- In this time of *global pandemic*, our economy is facing a very difficult and life-threatening health crisis that is present around the globe. It releases a great impact not only in the field of public health, but also in the people's livelihood, nation's food system, economy's employment and learner's education.

03

04

**HOWEVER,**  
We should always choose to  
fight and yield to these  
kinds of obstacles that  
might block our way to  
reach our goals.

# INTRODUCTION

04

- As this *second semester* is now on the verge of ending, and we will move forward to the next level of being a senior high student. I realized one thing, that in this time of pandemic. It is really hard to cope up from everything especially in this new learning system.

02

03

04

In this subject, there are activities that we undertake for us to test our knowledge. Hence, doing those activities or performance exam is not that easy especially for the fact that we are now on a blended learning also known as online class and modular learning.

A vertical sidebar on the left side of the screen contains several navigation icons: a hamburger menu icon at the top, a back arrow, a list of numbers 01, 02, 03, and 04, a forward arrow, and an upward-pointing arrow at the bottom. The background of the entire slide is a light blue grid.

# LEARNING EXPERIENCES 2.0

A white rectangular box with a blue border is positioned in the lower center of the slide. It contains a question and a blue 'X' icon on the right side.

What are my experiences in the  
school year 2020-2021, second  
semester?

01

02

03

04

**HOWEVER,**

I believe that these are not a hindrance to achieve our goals in education especially in our life. Furthermore, these are what I've learned in my experiences on second semester.

01.  
HTML

Performance Exam

## HTML

The first performance exam that I've

encountered during the second semester is making an HTML. It was hard for me because the fact that I don't have any laptop with me, I can't do it immediately so I need to ask some favor from my closed friend to help me with the said performance. And I'm glad that I have friends who are willing to help me with my academic struggles. Furthermore, in the process of making an hmtl, I can say that it was an easy task however it will just tire you because there are a lot of codes to type.

03

04

As I saw the result after finalizing my html, I was so amazed especially the one that has background music that after seeing it, I said to my self "grabe amazing kaayo, makabuhat na diayg website sa in.ani?" It's an epic reaction because it's my first time making it but through that performance task, I've learned a lot.

# 02. GRAPHIC DESIGN

Performance Exam

# GRAPHIC DESIGN

01

02

03

04

The second one that I've experienced was making a graphic designs. Although, I have a background experiences about lay-outing but I stop making when pandemic happened. But when sensei said that we will make logo, poster, infographics and labels I got excited because it's been a long time since I make my own design.

# GRAPHIC DESIGN

01

02

03

04

However, I got disappointed with my work because it's not what I expected it to be and the results can't even passed the standard of making. But later on, I accepted it because it's my work and applied my new learnings in graphic designing to my everyday routine. Learning how to make graphic design is an achievement already, the bonus part there is when you apply it as your skill.

03.  
SOCIAL MEDIA  
ADVOCACY

Performance Exam

# SOCIAL MEDIA ADVOCACY

01

02

03

04

Making an advocacy really excites me because aside from the fact that I will have a chance to express and spread my opinions, I can also educate my fellow youths and the community about the social issues we faced nowadays. While I'm on the process of making my advocacy, I really did learned a lot of things.
