
MEMORANDUM

TO: LONNY GRAFMAN
FROM: JONATHAN SANDER, CANAAN ABDULHADI, JACOB GELLATLY, ROMERO PEREZ
SUBJECT: SECTION 3 : ALTERNATIVE SOLUTIONS
DATE: OCTOBER 11 , 2017

PURPOSE

The purpose of this memorandum is to ask for feedback on the Section 3: Alternative Solutions document submitted by The Engineers that Could. The document was produced by collaboration from all four members of the team, and assembled on Wednesday , October 11 2017.

DISCUSSION

Section 3: Alternative solutions is the third section in our final project document. This section discusses alternative solutions that meet the same specifications, criteria, and constraints that the client has asked for.

CONCLUSION/CALL TO ACTION

In short, this document will serve as a reference to use when discussing design options and considerations. Seeing as there are many options to build the desired product the team now has to narrow down what is really being asked for and how the team can meet those expectations. Feedback on the alternative solutions would be appreciated.
