
MEMORANDUM

TO: CAMILLE PENNY
FROM: THE ECO TEAM- JACK LISIN, MCKENNA RAYBURN, MAKYLE HARMAN, SHANE DOTTERER, NATALIE RYNNE
SUBJECT: SUBMITTING LITERATURE REVIEW
DATE: FEBRUARY 25, 2016
CC:

Dear Camille,

The purpose of this memo is to accompany the Eco Teams Literature Review submission and inform the instructor of any questions the Eco Team, have. This Literature Review submission contains a review of information regarding the construction of ecoladrillo structures, concrete structures, and pathways.

We have a few questions regarding this project and this submission, We would like to know whether we are expected to build both a bench and a pathway or one or the other, we would like to add that we think our efforts would be better directed into designing and constructing one of those options. We look forward to hearing your feedback on this question and on our literature review product. Thank you.

Sincerely

The Eco Team. Jack Lisin, McKenna Rayburn, Makyle Harman, Shane Dotterer, Natalie Rynne
